Utilization Division: George D. Munger, Director of Utilization Division, presiding.
Conference Room, 2000 Massachusetts Avenue, N. W.

Wednesday, May 8, from 2 P.M. Through the Evening

Excursion to REA FARM EQUIPMENT SHOW, Chapel Point, Maryland

It is a happy coincidence that a Utilization Division Farm Equipment Show is being conducted on Maryland 4 St. Marys during the week of the Fifth Annual Staff Conference. All persons interested in rural electrification as well as all members of the REA staff are cordially invited to visit this show.

These farm equipment shows are very interesting -- have quite the atmosphere of a county fair and are attended by thousands of farm people. In several huge tents are presented lectures, programs of entertainment, demonstrations of farm electric equipment, and dealer exhibits of all kinds of electric equipment for farm use -- in kitchen and laundry, in dairy and poultry production, fruit and vegetable growing, other special lines, and in general farming. Not least among items of interest is a restaurant tent in which luncheons are served.

The Maryland 4 St. Marys show is being held at Chapel Point, Maryland, about seven miles from LaPlata. Adequate road signs will be placed to direct automobiles from LaPlata to the show grounds. Members of the REA staff have kindly made their automobiles available to persons who are without means of transportation, and all persons desiring transportation are requested to register their requests at the desk at the entrance to the Auditorium of the Department of Agriculture, Wednesday morning before the first session of the Conference.

Thursday, May 9, 9:30 A.M.

GENERAL SESSION

Auditorium, South Building, Department of Agriculture

Harry Slattery, Administrator of REA, presiding

1. Opening Remarks: the Administrator.
2. Addresses:

Land Use and Rural Electrification; M. S. Eisenhower,
Coordinator, Office of Land Use Coordination.

for Friday forenoon May 10.

THE USE OF THE RIBBON

REVIEWED BY ROBERT HARRIS

Anytime you encounter longish lists of names or words and need to mark them off quickly, there's probably no better way than the one described in this book. It's a simple, effective technique that can help you organize your notes, files, and reports and even make writing easier.

With clear, well-illustrated steps, this book will teach you how to mark and unmark the names and words you've chosen to remember.

If you're looking for a quick, easy way to keep track of what you've learned, this book is for you.

The Use of the Ribbon is a great addition to any library.

It's a valuable tool for anyone who needs to keep track of important information and wants to do it in a quick, efficient way. It's also a great way to learn how to use the ribbon effectively.

Whether you're a student, teacher, or just someone who likes to keep things organized, this book is a must-read.

It's a great investment that will pay off in the long run. If you're looking for a quick, easy way to keep track of what you've learned, this book is for you.

The Use of the Ribbon is a great addition to any library. It's a valuable tool for anyone who needs to keep track of important information and wants to do it in a quick, efficient way.
